An emergency regulation has been approved by the Advisory Board of livestock commissioners, which eliminates all tuberculin testing requirements for cattle being exhibited in Illinois that originate from a Bovine Tuberculosis Accredited - Free State. Since Illinois is a Bovine Tuberculosis Accredited - Free State, this means that Illinois cattle may be exhibited in Illinois shows without tuberculin tests. No tuberculin test is required for steers and females in market classes provided they are not co-mingled with breeding animals being exhibited.

Brucellosis - See page 12 for animal health rules
